

Md Rafeul Islam

Data Analyst

OBJECTIVE

An independent and self-motivated student with proven ability and experience in Data analysis and social network analysis recognized by professor, colleagues and peers. I am looking for an opportunity that challenges my skills and helps to upgrade my knowledge in the Data Science domain.

EMPLOYMENT HISTORY

Junior Data Analyst at Innovative Research and Consultant

January 2015 - November 2016

- Data Cleaning and helps to make reports using Microsoft Excel.

EDUCATION

Master's in Computer Science, Universität des Saarlandes

Present

Bachelor in Computer Science & Engineering, Daffodil International University, Bangladesh

September 2015

MASTER'S THESIS

Master's in Computer Science, Universität des Saarlandes

- Using the IFCN dataset we have collected information about covid-19 using twitter end API.
- Used methods like data clustering (skit-learn) and topic modeling (Gensim, Spacy)
- Data visualization, data cleaning, and filtering.

PERSONAL PROJECT

Olympics Data Analysis

- I tried to analyze the Olympics datasets from Kaggle to find different kinds of statistics about the Olympics events over the year. [Project Link](#)

Movie Recommendation System

- The recommendation is based on title, overview, genres, keywords, cast, crew details, and library from tmdb 500 movie list and library used for this nltk, skit-learn. [Project Link](#)

Data Science

- This repo contains several small but very interesting and essential projects like API data collection, data clustering, topic modeling, web scraping, and more. [Project Link](#)
